

Insurance Coverage for Alternative Treatments!

By Janet L. Hall, ND, CMI, CKP, AHG, CBT

More and more recognition is being given to alternative treatments and the **amazing** results they produce. So much so, that now there is bio-electric equipment manufactured for medical and alternative treatments that are FDA approved and insurance coded for reimbursement! And, are you aware that your current insurance coverage may include out of network provider and fund coverage that can be applied to alternative services? Call us for more information!

We are currently bringing awareness that those preferring alternative medicine or adding complimentary services to their healthcare *can be reimbursed by insurance!* Many have the coverage, but are not taking advantage of this provision.

We just recently did free sessions at the KOB TV-4 Health Fair featuring our newest pieces of equipment that are not only used for chronic symptoms and health issues, but also acute and chronic pain! These treatments are amazingly powerful, cover a wide range of issues and work in minutes! Many of those with chronic pain who took advantage of our free demonstrations at the health fair have not had the pain return at all!

If you have endured pain in an area of your body for over two weeks, you have what is considered chronic pain – whether it is neuropathic, inflammatory, surgically-induced or developed over a period of time. Practitioners around the world have reported outstanding and longer lasting results in the reduction of pain and illness using bio treatments. They have been proven to provide *fast, effective results* in even *one* treatment!

These machines treat any and all disorders & ailments including:

Parkinson's • Numbness • Neuralgia • Headaches • TMJ • Carpal tunnel • Chronic fatigue • Abdominal pain • Edema • Trigger point • Impotence • Cerebral and Bell's Palsy • Alzheimer's • Shingles • Muscle spasms • Stroke • Auto immune • Spinal cord injury • Soft tissue regeneration

Bio machines work to *aid all body parts, systems and organs* and much, much more! This equipment is clinically documented, laboratory tested and is in high demand. It helps with *all pain including, referred, phantom, somatic, visceral, neuropathic, and myofascial pain.*

There is so much that these wonderful treatments aid. Take for example, Arthritis and Rheumatic conditions. There is inflammation of membranes, tendons, ligaments, and muscles along with muscle fatigue and conditions of polymyositis (mostly in shoulders and hips) and dermatomyositis (patchy redness around knuckles, eyes, and other parts of the body along with chronic muscle inflammation). Generally steroids and other medications are the only treatment available and create a myriad of other health issues for your body to deal with. These new alternative treatments are incredible for all these problems and *any swelling, pain or disease processes!*

These machines administer the frequencies and neurostimulation needed to break up the pain and reinform your body not to go back into the same pain, symptom or disease pattern. They increase blood flow and stimulate your cells to restoration and wellness. So, in many cases, with just a few treatments these conditions are gone! If you have a long term issue needing treatment, there are user friendly bio machines we

carry that are available for purchase to use in the convenience of your own home.

Pain and illness affects your psychological state and mood, sleep, appetite, mobility and just about everything about your life! Why suffer any longer? Get rid of that chronic pain and enjoy your life again! Let your insurance plan help you with financial reimbursement. Call us now for more information on these great services. **505-294-WELL (9355).**
